OFFICE OF PETITIONS

Sir:

I, Charles J. Kring, declare as follows:

I hereby declare certain facts surrounding the signing of formal documents, including a declaration, by Gregory H. Barrault, a non-signing inventor at this time for U.S. Application Serial No. 10/057,827.

I am a co-inventor of the above referenced application U.S. Application Serial Number 10/057,827 filed January 25, 2002 (the '827 application), which claims priority to U.S. Application Serial No. 09/847,520 filed May 1, 2001 (the '520 application). I am also Chief Technology Officer of Profluent, Inc. ("Profluent"), owner of the above referenced patent application. The named inventors of the subject application include Charles J. Kring, Manthi Nguyen, Cimarron D. Taylor, and Gregory H. Barrault, all of which have been employees of Profluent.

At least the following steps have been taken to obtain Mr. Barrault's signature:

- In January 2002, I sent a copy of the '520 application and a declaration for such application for signature to Mr. Gregory H. Barrault at his home address (32 rue du

Tir, bat D, 78600 Maisons-Laffitte -- France, +33.1.39.62.95.80). The documents were sent by US post.

- In January 2002, I understood that the Mr. Gregory H. Barrault had signed and returned the declaration to Profluent.
- In January 2002, Profluent had a significant reduction in force. On that date, I was contacted by Mr. Richard T. Ogawa, attorney of record, to follow up on the signed declaration by Mr. Gregory H. Barrault and the other inventors. At that time, I understood that the signed declaration had been placed in an internal file at Profluent, which was located at 2025 Gateway Place, Suite 260, San Jose, California, 95110. Since Mr. Ogawa did not have the signed declaration, I instructed Mr. Ogawa to re-file the '520 application as a continuation application, which is the above referenced subject application-the '827 application.
- In February, 2002, Profluent moved out of its previous premises at 2025 Gateway Place, Suite 260, San Jose, California. The internal file was archived at Safe Place Storage, San Jose, CA. At that time, I believed that the signed declaration had been sent out to Mr. Richard T. Ogawa.
- On July 19, 2002, I received notification from Mr. Richard T. Ogawa that the signed declaration for Mr. Gregory H. Barrault and other inventors had not been received yet.
- On July 23, 2002, I called Mr. Gregory H. Barrault via telephone at his home in France and arranged a meeting on July 25, 2002 in Paris, so that Mr. Gregory H. Barrault could sign the declaration for the '827 application.
- On July 25, 2002, I had to cancel the meeting with Mr. Gregory H. Barrault.
- On August 7, 2002, I emailed the declaration to Mr. Gregory H. Barrault for his signature.
- On August 11, 2002, I received a notification that the email delivery had failed.
- On August 18, 2002, I again emailed the declaration to Mr. Gregory H. Barrault, asking him to fax back the signed declaration as soon as possible.

- On August 20, 2002, I received a reply that Mr. Gregory H. Barrault was on vacation and had no access to a FAX machine. In the reply, Mr. Gregory H. Barrault promised to fax the signed declaration on August 21, 2002.
- I understand that a Response to Missing Parts is due on Aug. 20, 2002, which is the extended date for such Response. Based upon such due date, I hereby provide this declaration to indicate that Mr. Gregory H. Barrault had not signed.
- Based upon at least the facts above, I hereby declare that I made diligent efforts to secure Mr. Barrault's signature for the declaration for the '827 application.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated this 20th day of August, 2002, Sunnyvale, California, United States.
